Instructions for Online Bid Submission

(Department User may attach this Document as an Annexure in their Tender Document which provides complete Instructions for on line Bid submission for Bidders)

The bidders are required to submit soft copies of their bids electronically on the Central Public Procurement Portal (CPPP), using valid Digital Signature Certificates. The instructions given below are meant to assist the bidders in registering on the CPP Portal, prepare their bids in accordance with the requirements and submitting their bids online on the CPP Portal.

More information useful for submitting online bids on the CPP Portal may be obtained at: https://eprocure.gov.in/eprocure/app

REGISTRATION

1. Bidders are required to enroll on the e-Procurement module of the Central Public Procurement Portal (URL: https://eprocure.gov.in/eprocure/app) by clicking on the link "**Online bidder Enrollment**" on the CPP Portal which is free of charge.

2. As part of the enrolment process, the bidders will be required to choose a unique username and assign a password for their accounts.

3. Bidders are advised to register their valid email address and mobile numbers as part of the registration process. These would be used for any communication from the CPP Portal.

4. Upon enrolment, the bidders will be required to register their valid Digital Signature Certificate (Class III Certificates with signing key usage) issued by any Certifying Authority recognized by CCA India (e.g. Sify/ nCode/ eMudhra etc.), with their profile.

5. Only one valid DSC should be registered by a bidder. Please note that the bidders are responsible to ensure that they do not lend their DSC's to others which may lead to misuse.

6. Bidder then logs in to the site through the secured log-in by entering their user ID / password and the password of the DSC / e-Token.

SEARCHING FOR TENDER DOCUMENTS

1. There are various search options built in the CPP Portal, to facilitate bidders to search active tenders by several parameters. These parameters could include Tender ID, Organization Name, Location, Date, Value, etc. There is also an option of advanced search for tenders, wherein the bidders may combine a number of search parameters such as Organization Name, Form of Contract, Location, Date, Other keywords etc. to search for a tender published on the CPP Portal.

2. Once the bidders have selected the tenders they are interested in, they may download the required documents / tender schedules. These tenders can be moved to the respective 'My Tenders' folder. This would enable the CPP Portal to intimate the bidders through SMS / e-mail in case there is any corrigendum issued to the tender document.

3. The bidder should make a note of the unique Tender ID assigned to each tender, in case they want to obtain any clarification / help from the Helpdesk.

PREPARATION OF BIDS

1. Bidder should take into account any corrigendum published on the tender document before submitting their bids.

2. Please go through the tender advertisement and the tender document carefully to understand the documents required to be submitted as part of the bid. Please note the number of covers in which the bid documents have to be submitted, the number of documents - including the names and content of each of the document that need to be submitted. Any deviations from these may lead to rejection of the bid.

3. Bidder, in advance, should get ready the bid documents to be submitted as indicated in the tender document / schedule and generally, they can be in PDF / XLS / RAR / DWF/JPG formats. Bid documents may be scanned with 100 dpi with black and white option which helps in reducing size of the scanned document.

4. To avoid the time and effort required in uploading the same set of standard documents which are required to be submitted as a part of every bid, a general provision of uploading such standard documents (e.g. PAN card copy, annual reports, auditor certificates etc.) has been provided to the bidders. Bidders can use "My Space" or ''Other Important Documents'' area available to them to upload such documents. These documents may be directly submitted from the "My Space" area while submitting a bid, and need not be uploaded again and again. This will lead to a reduction in the time required for bid submission process.

Note: *My Documents space is only a repository given to the Bidders to ease the uploading process. If Bidder has uploaded his Documents in My Documents space, this does not automatically ensure these Documents being part of Technical Bid.*

SUBMISSION OF BIDS

a. Bidder should log into the site well in advance for bid submission so that they can upload the bid in time. No consideration would be given to the bidder for any delay faced due to any other issues (viz. technical/server down etc.) i.e., on or before the bid submission time. Bidder will be responsible for any delay due to other issues.

b. The bidder has to digitally sign and upload the required bid documents one by one as indicated in the tender document.

c. Bidders are requested to note that they should necessarily submit their financial bids in the format provided and no other format is acceptable. If the price bid has been given as a standard BoQ format with the tender document, then the same is to be downloaded and to be filled by all the bidders. Bidders are required to download the BoQ file, open it and complete the white coloured (unprotected) cells with their respective financial quotes and other details (such as name of the bidder). No other cells should be changed. Once the details have been completed, the bidder should save it and submit it online, without changing the filename. If the BoQ file is found to be modified by the bidder, the bid will be rejected.

d. The server time (which is displayed on the bidders' dashboard) will be considered as the standard time for referencing the deadlines for submission of the bids by the bidders, opening of bids etc. The bidders should follow this time during bid submission.

e. All the documents being submitted by the bidders would be encrypted using PKI encryption techniques to ensure the secrecy of the data. The data entered cannot be viewed by unauthorized persons until the time of bid opening. The confidentiality of the bids is maintained using the secured Socket Layer 128bit encryption technology. Data storage encryption of sensitive fields is done. Any bid document that is uploaded to the server is subjected to symmetric encryption using a system generated symmetric key. Further this key is subjected to asymmetric encryption using buyers/bid opener's public keys. Overall, the uploaded tender documents become readable only after the tender opening by the authorized bid openers.

f. The uploaded tender documents become readable only after the tender opening by the authorized bid openers.

g. Upon the successful and timely submission of bids (i.e. after Clicking "Freeze Bid Submission" in the portal), the portal will give a successful bid submission message & a bid summary will be displayed with the bid no. and the date & time of submission of the bid with all other relevant details.

h. The bid summary has to be printed and kept as an acknowledgement of the submission of the bid. This acknowledgement may be used as an entry pass for any bid opening meetings.

ASSISTANCE TO BIDDERS

1. Any queries relating to the tender document and the terms and conditions contained therein should be addressed to the Tender Inviting Authority for a tender or the relevant contact person indicated in the tender.

2. Any queries relating to the process of online bid submission or queries relating to CPP Portal in general may be directed to the 24x7 CPP Portal Helpdesk.

SCOPE OF WORK
(Very Important for all bidders)

This Office under Brahmaputra Basin Organization has been mandated to carry out annual cross-sectional morphological survey of River Brahmaputra between its stretch from Dibrugarh to Tezpur (CS-62 to CS-31) – a total of 31 Nos of cross section, covering a length of approximately 300 km along the river. This bathymetric survey needs to be carried out along the entire vast cross-sectional width of River Brahmaputra which varies from 6km to as high as 25km is some stretches. The cross-sectional bathymetric survey needs to be carried out at an interval of 10 km (approximately) between the stretch of River Brahmaputra from Dibrugarh to Tezpur. The last survey was carried out in the year 2024-25.

The successful bidder may start the work of cross-sectional bathymetric survey either from left bank or right bank of the river depending upon the accessibility of roads and as part of its holistic planning so as to complete the entire work within scheduled time frame. On either bank, reference pillars (Temporary Bench Marks) are available. The work needs to be started from one of the reference pillars and shall end on the reference pillar situated on the other of the bank of the river, without changing the bearing of the rovering path of boat. The details of geographical co-ordinates of reference pillars (TBM) with information about their nearest landmark, their relative position with respect to bank (Left or Right) and the location of nearest CWC Site Office establishment are mentioned in Annexure-V. Department shall extend feasible support to the bidder for ground identification of control points, however the transportation and logistics expenses for the same need to be borne by the vendor only.

The bidders must get themselves acquainted with the general morphology of Brahmaputra by having physical visits to the location / site of proposed work before quoting their rates. The river Brahmaputra flows through vast cross-sectional width between its stretch from Dibrugarh to Tezpur. The width of the river between the reference pillars (TBM) in general varies between 6km to 25km. Additional, along the proposed width of bathymetric survey, number of islands are anticipated to be encountered with width varying in few kilometers. The details of number of islands anticipated along a particular cross-sectional width with their respective approximate lengths are mentioned in Annexure-V (last column). Since the survey is proposed to be carried out in lean season of flow, the number of islands across the width are subjected to variation.

The proposed bathymetric survey includes not only under water depth observation but also the reduced levels of Intermediate Island, its width and its characteristic need to be deciphered. The bidder must appreciate the challenges involved and should deploy adequate surveying tools. Besides engineering equipment, there may arise a need to spend a night or so in the intermediate island to ensure continuity of survey the next day. The bidder should have arrangements for adequate logistics, food, camping equipment etc. to ensure a productive and accurate survey.

The anticipated depth of the river Brahmaputra in the above cross-sections varies between 1-2m to as high as 20m in some sections. For the above bathymetric survey, the bidders must possess state of the art GPS enabled eco-sounder capable enough to measure the sounding depth overcoming huge current of the river. The GPS enabled eco-sounder shall be rovered through powerful motor-boat (catamaran) to nullify the effect of cross-current in the river. Bearing compass may be used to ensure alignment of the boat in the designated path between the provided co-ordinates of both the banks of the river. The segmental reduced distance for taking the bathymetric depth along the cross-sectional width may be taken as 50m. The successful bidder has to submit detailed methodology as how they propose to execute the

work, within 15 days from the date of issue of work order.

Keeping holistic approach, only one BOQ item has been floated covering all aspects of work from field work to final printing of report. The details of milestones vis-à-vis terms of reference of payment has been mentioned under the section "Instruction to Bidders". Besides conventional factors; the bidders are advised to quote the rates of BOQ items considering costs that may be incurred due to transportation, logistics, terrain difficulty, availability of materials, labour cost, availability of public transportation etc. All bidders are advised to visit the locations and understand the requirement of work; before quoting the rates.

For better monitoring and control, cross Section between Dibrugarh to Tezpur (i.e., CS-62 to CS-31) has been divided into three phases according to the jurisdiction to respective Sub-Divisional Engineers under this Office. The phasing of cross sections with information of respective Sub-Divisions are tabulated below:

S. No	Reference Pillar at Sections	Sub-Division (Responsible)
1	CS-31 to CS-42	D(S)&K, Tezpur
2	CS-43 to CS -51	UBSD-II, Jorhat
3	CS-52 to CS- 62	UBSD-I, Dibrugarh

The above-mentioned work is to be done under the supervision of respective Sub-Divisional Engineers of Dibrugarh, Jorhat and Tezpur and all work shall be completed to his/her satisfaction.

The bidders are advised to ensure that all necessary survey equipment with logistics arrangement is taken care of for ensuring quality work and adhering to stipulated time-frame. A tentative list of bare minimum equipment and instruments that should be possessed by all interested bidders is tabulated below for ready reference:

S. No	Equipment / Instrument	Minimum Advisable Technical Specifications / Numbers
1	Motor boat (Catamaran) & Seating Capacity	90 HP Engine – 2 Engines with 8-10 people seating capacity
2	Inflatable Rubber Boat	02 Nos
3	Total Station with Stand	01 Nos
4	Prism with Stand	01 Nos
5	D.G.P.S. Instrument	01 Nos
6	Optical Fiber Range Pole	01 Nos
7	Auto Level with Stand	01 Nos
8	Levelling Staff	03 Nos
9	GPS Enabled Echo Sounder	02 N0s
10	All essential Camp Items	As per requirement
11	Inspection Vehicle	01 Nos

The above Scope of Work shall be read in conjunction with Annexure-V and Technical Specifications & Schedule of Quantities (Schedule-A) of this NIT for better clarity in understanding the scope of desired work.

Payment in all probability shall be reimbursed to the successful bidder within 120 days from date of receipt of running bills/ final bill, subjected to availability of funds.
